Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

measurement of a natural frequency based on a thickness of said thin portion when a current is caused to flow in said thin portion and/or a thickness sliding oscillation mode or a thickness vertical mode that allows measurement of a natural frequency based on a thickness of said thin portion when a current is caused to flow in said thin portion (col. 4 lines 5-45).
